SPONSORSHIPS

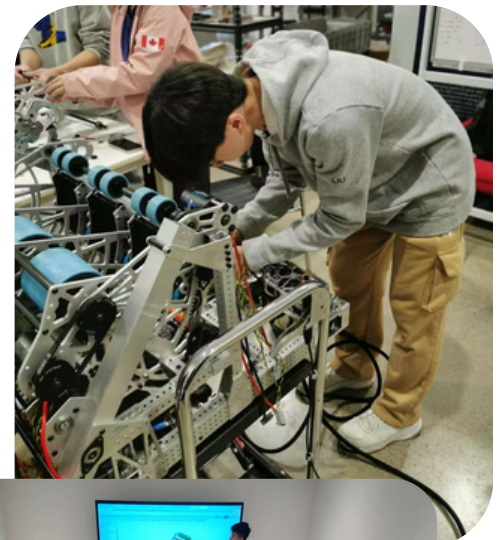

ABOUT NOVA!

We are a FIRST Robotics Competition team based in Markham, Ontario, Canada. In FRC, we build industrial robots to perform different tasks related to each year's game. In the span of **3 months**, our team designs, fabricates, assembles, and programs a robot to compete with over 2000 other teams. Though we are a rookie team, our sister team, 9785 Alectrona, has gone to the **world championship** the last two years.

WHY SPONSOR US?

- **Team Development**
 - Your generosity provides learning opportunities for students through mentorships, materials, tools, and registration fees
- **Increase your brand's visibility**
 - Our instagram has over **1500** followers
 - In 2025, FIRST had **41 Million+** Media Impressions
 - **50000+** FIRST Championship Attendees
 - **66+** Countries
- **Inspire Community Growth**
 - Your contributions go beyond competitions, supporting STEM outreach programs that include workshops, mentorships, and community events.
